

**Prof Atsunori Mori**

**Title:** Winding vine-shaped heterobiaryls of molecular asymmetry  
Department of Chemical Science and Engineering, Kobe University,  
1-1 Rokkodai, Nada, Kobe 657-8501, Japan

Phone: +81 78 803-6181  
E-mail: amori@kobe-u.ac.jp

Nationality: Japan  
Date of Birth: May 24, 1959

Research interest: Organic synthesis with transition metal-catalyzed reactions. Design of functional organic molecules involving liquid crystalline materials, light emitting devices, conductive materials, etc.

Education background:

April, 1978 - March, 1982	Department of Applied Chemistry, Nagoya University B. S. (Hisashi Yamamoto)
April, 1982 - March, 1987	Graduate School of Engineering, Nagoya University Ph. D. (Hisashi Yamamoto)

Research Career:

June, 1984 - Sept, 1984	Research Fellow, Department of Chemistry, Colorado State University (Louis S. Hegedus)
April, 1987 - March, 1988	Postdoctoral Fellow, Department of Chemistry, University of California, Berkeley (K. Peter C. Vollhardt)
April, 1988 - March, 1993	Assistant Professor, Department of Synthetic Chemistry, The University of Tokyo
April, 1993 - June, 1995	Assistant Professor, Graduate School of Materials Science, JAIST (Japan Advanced Institute of Science & Technology)
July, 1995 - Nov, 2005	Associate Professor, Chemical Resources Laboratory, Tokyo Institute of Technology
Dec, 2005-	Professor, Department of Chemical Science and Engineering, Kobe University
